Thread: [How many tabs you got on your browser?](#)

DanielZ - December 29, 2024, 7:54 pm

I tend not to bookmark my tabs, instead, I leave them open and just open new ones. Right now, I have 68 tabs open! ?

What about you? Are you a normal one or someone like me?

Deany - December 29, 2024, 9:00 pm

Uh at the moment only 13

No, I save some pages in my favorites so that if I need them someday, I know where to go; otherwise, I'd go crazy.

Foxxxy Proxies Ltd - December 29, 2024, 9:11 pm

I sometimes use bookmarks for important technical things that I know I'll have to reference several times, but normally have around 30-40 browser tabs open pretty much all the time.

Pimping - December 29, 2024, 9:41 pm

19 tabs open for me i usually clear it after it gets over 25

SIM-5594896 - March 7, 2025, 1:19 am

I try and keep around 10 of them. Otherwise I tend to multitask and do not properly focus on anything.

Same, I usually only have like 7 max. I can't stand all that clutter, my OCD freaks out when I see people with 10 or more. But I turn my computers off when I'm not using them also and I don't have Firefox save tabs when closed.

DenkiGishi - March 7, 2025, 6:58 am

I have a screenshot somewhere of a pop-up notification I got once where I had 500 tabs open on my mobile browser and it was telling me that I couldn't open any more tabs unless I closed some.

Fresku - March 7, 2025, 8:39 am

Mercury - March 16, 2025, 6:14 am

68 is wild. I'm currently at 5 but I get upwards of 10-12 sometimes. I start to feel guilty and messy after awhile so I try to cut it down when I can.

Reasonableman89 - March 16, 2025, 7:08 am

I like to close them as much as possible, it becomes hard to be productive with so much mess on the browser.

Crystal Lord - March 16, 2025, 11:07 am
