Tiktok is offering credit for fresh installs and account creations.

Looking for someone who can offer this, each account has to be a unique creation.

Please PM.

This can be done via incentive campaign . I can do this for you along with trial obviously.

What is the rate of the credit? I might be able to assist you with this, depends on what rate you're trying to pay per account + install.

Is this the same as the referral program they did a few weeks ago? If so the rewards were only in coupons to use on the TikTok shop. I know there were tons of reddit posts of people clicking each others links, so if you can't find anyone to do this I'm sure there are a ton of reddit posts willing to help as well
