Thread: [Huntsman Doppler P1 FN | Moto Gloves Blood Pressure FT](#)

Astonished - December 30, 2024, 10:23 am

Got these recently but in good need of some cash fairly quickly.

? Huntsman Knife | Doppler (Factory New) Phase 1 - Float: 0.010381904430687428

? Moto Gloves | Blood Pressure (Field-Tested) - Float: 0.3651730120182037

Neither of these are currently tradeable but wanted to list in advance to save some time. Will still accept a deal on them before hand if anyone is eager.

Gloves tradable on the 1st and Knife will be tradable on the 4th

Knife is looking at about \$400 cash price and the gloves are around \$170 cash price across most markets.

However open to offers of course! Would like to see around \$360 at on the knife but again, haggle me, especially if you want to take both items!

I would like to stay away from Paypal for payment. Will still be using contracts on site. Please contact me through convo with any queries or interest.

HAPPY TO USE MM BUT WILL NOT COVER FEES!
