Thread: [what can i do with Silent Miners?](#)

bigpimppig3636 - January 3, 2025, 9:56 pm

hello every one

i was wondering can i use UnamSanctam / SilentXMRMiner to inject the miner in an app that i make (FREE ROBUX GENERATOR) or something like photoshop and spread it on the internet so it could mine XMR and send it to my wallet if yes HOW cuz it only let me inject it to explorer

and is there anything better then UnamSanctam miner? (something free)

TY yall

No one wants to help you exploit kids, loser.

Slyn - January 3, 2025, 11:36 pm

Hacking kids is a pretty low bar, I doubt anyone on this forum will assist you in this.

I mean, better than hacking adults with mortgages, hospitals, etc.

No such good thing as a good hack though
