Hello friends,

I am returning here after a long break. I have been doing the offline job for the last 4 years. I lost my job and then decided to return to online jobs/tasks.

My offerings:

1) Telegram / Discord group moderation:

I have worked with 14+ crypto/NFT projects as a Telegram Admin/Moderator. I have successfully handled responsibilities like social media posting, Comment moderation, group interaction, spam removal, channel growth, and more for my clients.

2) Telegram / Discord / Facebook group chatter, Shiller

I have worked with 6 NFT projects as a chatter/shiller. My duties were to keep healthy conversations in the groups.

3) Shopify VA

I have handled Shopify stores for my clients.

4) Telegram / Discord Bot:

I can create basic to moderate-level telegram and discord bots.

5) Content uploading:

I can upload content to YouTube channels, Insta pages, Facebook pages etc.

I also have a good Upwork profile, with many projects completed between 2016 to 2021.

Please friends, if you need any assistance you can hire me. I am always ready to learn new things too.

My rates are very reasonable and negotiable.

Cheers,
