I love doing Scrape Books and Crafting and sometimes running my ideas out with Acrylic Markers!

Anyone loves doing this?

My girl is really into crafting. She will stay up all night to finish a project for our children's school. Its nuts.

I really enjoy DIY, but what I like even more is having the tools to do it, all neatly organized and in its place. Unfortunately, it requires a lot of money.

I have a lot of tools, like over \$10K worth in total. Wanna talk about them? Like I have precision knife set of 20 and a lot more. Like pencils over 100+ on different b and different size. A lot of fun stuff! Wanna talk? HMU over telegram @spamassassins
