Gradient just launched their Sentry Node in open beta which is just the first phase of their product. The Sentry Node is a browser extension similar to that of Grass and Nodepay. They offer a perpetual 10% bonus reward from referrals. Further details can be found [here](#)

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
