Thread: [\[Free\] Test crypt for upgraded members. \[Wd Runtime Bypass Coded in C/C++\]](#)

Donrulezz - January 8, 2025, 4:34 am

Features:

Developed in C/C++ for optimal performance and flexibility.

Supports both native and .NET applications.

Providing a free test crypt before the i launch the official paid version of the crypter.

Successfully bypasses Windows Defender (WD) at runtime.

Encryption : No Aes Shit [Using Chacha20]

Testing & Compatibility:

Wd Runtime bypass confirmed with Asyncrat, Xeno Rat , xworm RAT.

Other antivirus solutions are yet to be tested—users with access to scanner.to are welcome to share results.

Availability:

Limited-time free 5 test crypt available for leet and ubers (1 For Each Member). Don't miss out—test it now!?

TOS:

User should not upload crypted file on virustotal or any other scanning platform which distribute the samples.
