Thread: [XMR Miner?](#)

Rsynced - January 8, 2025, 10:54 pm

Min investment? Power use? I am total n00b but want to learn how to build a XMR miner. Anyone have some links? Tips? Thanks.

EDIT:

I have everything up and running VIA XMRig using an i7 intel cpu. This is experimental.

I have aN amd radeon 7950 stitiing in my closet that I would have to rebuild. Would this work good? or does Nvidia cards work better at mining XMR?

Anyone even active in this section?

LeetSpeed - January 10, 2025, 4:48 pm

XMR is CPU mining only. and the best CPU to use for this would be a Ryzen although that i7 will work fine to mine XMR.

It's so slow, I make 0.0001 XMR/DAY with my CPU.

How much do you make with your Ryzen per day?

kinnu543 - January 10, 2025, 7:48 pm

Better avoid mining, roi is very less. Not profitable business.

I don't mine XMR.

You'll get paid on day one with that set up. Move over to XLA community on XMRIG. check scala pool.

Jannik13 - January 30, 2025, 12:05 pm

Not worth mining XMR!

Borris5ranked - September 5, 2026, 1:38 pm

I'm looking for a non deployable miner.
