excuse me friends

let me introduce myself, my name is Ibrahim from Indonesia

I've been on this forum for a year

but there is no single method of making money that really works

I don't know if I use paid methods whether I can make money

Help for friends who have methods to make money

share it with us, we are the ones who need it

I really like learning if there is a method that really works

I hope there is someone kind who will share this method

Thank You

prosperous for all of us

Most methods for making money are not shared on public forums.

Instead of chasing a shot shot money making method, I would suggest picking a skill.

It could be coding, marketing, web designing, video editing, and so on.

There are way too many possibilities you just need to pick something you enjoy working on.

Be consistent with whatever you decide to pursue.

Good luck!
