I used to party, too much. Raves, drugs.

Now I'm just doing hacking / cybersecurity and sport, better for my health and my future. Besides, it becomes harder to recover after 28/29 years old, can't handle hangover anymore

The only song I know from Hollywood Undead is this one :

Not anymore, thankfully. I don't remember a lot of my 20s due to partying. Began in high school, throwing house parties every Friday night, and continued the habit until I got sick and tired of being sick and tired.

Ayyy, Swan Songs was a legendary album. No. 5, City, Young, Everywhere I Go. Used to listen to them a ton a back in the day, might have to start putting Hollywood Undead on again.

I partied a lot on the weekends when I was younger, no regrets for the most part. These days I just like to stick with my girl Mary Jane.
