Can this be done with e-whore packs? or will you need access to a real model?

Thanks

I use packs only, the subs I tell you don't require a verification to post on them.

User had deal disputes. Give a legit vouch copy with no purchase to redeem yourself. Otherwise just give up.

Sorry no freebies. Let me know when you can afford.

The deal dispute has been resolved and everyone can see that the user in the DD was provided the mentoring.

After purchasing the guide, the seller's communication became minimal. Before the purchase, he responded almost instantly, but afterward, he only reply once a day with 3-4 messages at most. Additionally, I specifically asked whether a VPN or proxy was necessary, and he told me me it wasn't—yet my account still got banned. At this moment, I cannot recommend this seller, but I hope this review will encourage some improvement. I want to emphasize that I purchased mentoring, not just an ebook.

You have paid just half of the mentoring and I'm not online 24/7 to message you back bro. I have to sleep and I'm busy lately. You purchased a banned reddit account and you don't even know if you're purchasing a legit reddit account or not. I was offering you to buy my reddit account which would 100% work but you didn't buy it.

TYLER - March 7, 2025, 1:27 pm

Any vouch copies available aside from a discount? Lots of you posting earnings but no vouches.

I asked if such an account would be okay - you said yes, so I bought it. You offered an account for three times the price, so it was logical that I chose the one that was cheaper and according to you it was okay. I paid half, so that means I can't count on any more help? I also understand different time zones because we are 6 hours apart, everyone needs sleep.

I hope that after this post it will change and we will finally get going. Then I will edit my current opinion and post the appropriate one.

Have a good night ?

I saw this post and I find the guide interesting, but honestly, I have no idea if this man is worth

listening to.

Can someone who is unfamiliar with him give me an honest opinion about the method?
