Thread: [Ethical Hacking Web Application](#)

JoseMar - January 13, 2025, 5:48 am

Hi guys

I found this Ethical Hacking: Web Application Hacking course online, and I think it's absolutely worth checking out! It's packed with video content. Hopefully, someone finds it helpful! ?

Study Guide

Web Server Concepts
Web Server Attacks
Web Server Attack Methodology
Web Server Attack Tools
Web Server Countermeasures
SQL Injection Concepts

Mega Link for download:

<https://mega.nz/file/Yw5DAL5L#A0k0TOoGeP-cXls40tNGs42FSQv3fMiVPukaRzT8Qis>

The password to access the file is:
hackforums.net

This is for someone who learns better through videos and doesn't have highly advanced skills.

Enjoy guys!

I don't wanna jump the gun on you but if this is Damn Vulnerable Web Application and you have it up for bytes when I have posted guides on using it in the past ima be salty boi

Shapeless - January 17, 2025, 8:38 pm

You are about 100 bytes when losing millions? :D

I've been using this course Web Application for practice and to explore different scenarios in my lab. I believe I got it over a year ago from someone I used to learn with. I'll definitely check out your posts, they'll surely provide valuable insights. I'll also reach out to you and send a link to download it so you can check if it's yours.

As for the Bytes, I originally planned to set it to 10 Bytes, but the thread gave me an error saying it needs to be at least 100 Bytes, so I couldn't use 10 Bytes. (I don't know why, you can try to see if you have the same probleme and let me know)

I'm also planning to ask a Staff member if it's allowed to share a direct download link from Mega.

Best regards, everyone! I truly don't mean to offend anyone.

Update: The thread has been updated, guys! Best regards!
