Not the car company or there techs, the 5-star rating, but the local car shop in town got it fixed in 1 day.

Missing a bunch of little pieces? too hot before.. I got new tires after. I got alignment too. In total I spent \$3000.

Expensive car needs to have a clean dash ;) they did it the best just had to put it out there.

The more I read this, the more confused I become. Anyhoo, I am glad that your dash is clean now. Hopefully it stays that way. :-)

For \$3,000 you should have gotten a blow job too. Or at least one of those naked girl car washes.
