Thread: [5 spots open* UBER EATS METHOD! -- get up to 90% OFF EVERY ORDER! ANY COUNTRY!](#)

Annuït cœptis - January 14, 2025, 6:53 pm

I'm not going to create a flashy thread design to try to sell you something that doesn't actually work. I'm the real deal. I stand by quality. I take pride in every product I put out. I try to build long term business relationships with people and this thread is no different.

As a backstory:

I've always had a hobby of finding exploits and bugs to get free or discounted stuff from rich corporations. I've found ways to get discounted CVS promotions, discounted live event tickets and other things of that nature. I hit gold when I found these strategies to obtain/order from Uber Eats practically free.(Up to 90% OFF.)

I've gone through a lot of trial and error the last few months and now I've mastered this. I've refined the process to the point I'm confident ANYBODY CAN IMPLEMENT THIS. THIS METHOD WILL WORK WITH ANY COUNTRY THAT UBER EATS IS AVAILABLE IN. Most popular promotions include \$30.00+ OFF Canadian orders \$1.00 minimums, \$25.00 OFF USA orders \$1.00 minimums, etc.

What I'm offering:

I'm offering 2 strategies packaged into 1 delivery. The first strategy will guide you on how to obtain promotional Uber Eats accounts. It will teach you on what to do, how to do it and what to avoid. The second strategy will guide you on how to use those promotional Uber Eats accounts. You can rely on this to work with every single order. You'll be able to order to the same address over and over; no 'Jigging' necessary.

Why is this valuable?

I use this method daily for personal use, which saves money. In the past, I've ran a Buy4You food service and Uber Eat account service for profit. There's many business structures that can be built from what I'm offering. If you're business minded, you could make thousands very quickly from this. I no longer have the patience for the customer service side of this business anymore. This is the reason why I'd rather mentor/guide the strategies instead of perform the strategies for profit.

I'm selling each copy for \$400.00. I'll accept any major crypto.

Out of respect for these strategies and the people who purchase it, I will limit the copies sold to 5 people only.

ToS:

All sales are final.

You will not leak, share or distribute these strategies to anyone else.

for validity My Uber Eats service thread mentioned above:

I've been working with Annuit for a couple of days now.

Very legit dude. Very legit method. Works like a charm.

Annuit's support through the process is amazing. He has organized it from top to bottom for you to succeed using it.

It will take a bit of knowhow, but once you get it going, it's a masterpiece of a method. No.. seriously... i'm still shocked at how absolutely smooth this thing operates.

If you're a little bit creative, you'll get savings of your money within a few weeks. And green profits sailing from there. (My net savings so far between me and my family is about \$350 in 3 days not optimizing usage. Way better numbers as you get familiar with it.

Huge vouch for this member and this method. I know he's not going to offer this for too many people to ensure it's security, so I would scoop this up if you can do even a bit of math on the potential savings here.

Note: If you look through my profile you will see years of my history purchasing and experimenting with methods. This is one of the best I've found. The user selling it sweetens the deal. You don't find many people on HF that have integrity like this man.

Good luck Annuit!

Thank you for the kind words. I'm glad you're enjoying what I've sold you.

You're the ideal customer that any seller would ask for. I'm almost at the limit as far as copies sold. I don't plan on reintroducing this back into the market.
