Thread: [PREMIUM MONEY MAKER || Make \\$2000/month guaranteed or your money back!* 4 spots open](#)

Annuït cœptis - January 14, 2025, 8:01 pm

I'm the real deal. I stand by quality. I take pride in every product I put out. I try to build long term business relationships with people and this thread is no different.

I'm willing to accept only 50% of payment upfront. I'll ask for the remaining payment after you earn your initial money back.

Additionally, I'll offer you a guarantee. If you do not earn \$2000/month after the method being fully implemented, I will refund you in full. I'm confident this will work for you.

What I'm offering:

I'm offering a fully legal money making strategy that will guarantee at least \$2000 profit per month. You can potentially scale upwards of \$3700 a month depending

how much effort you want to put in managing it. I've put a lot of effort into ironing out all of the wrinkles by personal trial and error. I can confidently say, in simple terms, it will take you roughly 12 hours of effort to maintain \$2000 in profit per month. Payouts are typically through ACH/bank transfer but alternatives are available such as virtual credit cards/virtual gift cards.

I will also include a small bonus method for free. This bonus method can passively make you 70-100\$ a month on top of the main method.

So what's the catch? Why Sell it?

I'm actively utilizing this strategy for profit. I know this will work because I'm a success story from it. The reason I'm willing to sell this information is because it doesn't matter how many people are doing it. In other words, you implementing this method will not saturate my profits. We are not selling anything to anyone. There's no competition on what we're doing.

I'm selling each copy for \$500.00. I'll accept any major crypto.

For quality control and out of respect for the people who purchase it, I will limit the copies sold to 4 people only.

You have to be a US citizen. This will not work if you're out of the United States.

This does not include:

E-whoring.

Sports betting.

Fixed bets.

Runescape.

Virtual items.

Trading.

Selling/flipping items.

Affiliate marketing.

Social media.

Uber Eats/CVS

ToS:

All sales are final.

Refunds are offered after directly working with me and with confirmation of effort/implementation.
You will not leak, share or distribute these strategies to anyone else.

My review:

Don't buy it. It's a method that's been recycled on HF for years.

OP is shady for even selling this to me in the 1st place considering he knows for a fact that I know this already because we got the method from the some place. We also have spoken to each other in the past about this method on multiple occasions.

Point - Is it working ? \$2000 usd per month?

If not, claim your funds!

He wouldn't know since he would never implement the method.

I have conversations with him admitting this will make him money.

Read the full contract for full context.

The agreement is as follows:

?? I will accept 50% upfront payment. (\$250) I will claim the remaining 50% after Nugs earns his initial money back.

?? I guarantee he will make \$2000/month after fully implementing this method. To be crystal clear; there is some initial things that need to be done before getting to that full scale of \$2000/month. I will directly work with Nugs to get him to that point to ensure results. If in 8 weeks, after being fully implemented, he does not start earning \$2000/month I will refund him in full.

?? All sales are final.

?? You will not leak, share or distribute these strategies to anyone else.

?? By accepting this contract you agree to these terms.

People should not blame unless it's not working,
Because this is what matter the most !

Did you read the reason for the dispute? Clearly not or you're just as brain dead as the seller.

Seller is also threatening me saying he has my address.

Will provide all evidence to a staff member.

Even if it is widely available online, what matters is, you can make money from it and the seller guarantees you will make 2k/month.

What else do you want? at the end of the day, we are all here to make money.

^ Like what kinda logic is that

"I can teach you how to grow a farm that's profitable"

"FARMS HAVE BEEN AROUND SINCE THE 1800's SCAMMER"

If not, claim your funds! Multiple sellers selling the same exact method all claiming it is different and

charging different amounts is a fucking shady practice that is why. Most if not all these ebooks are full of fucking shit and are cash grabs. Recycling them is just disgusting. I believe to sell ebooks they should be moderator reviewed. If that is already required then the mods need to act on the same method being sold multiple times.

Mods should also be able to test the method before it is posted on site. It is simple, people shouldn't come to this site. Immediately purchase vendor and be selling shit tier ebooks. Easily causing double dipping on the same methods multiple times by uneducated members.

If this is truly a method that someone is already selling I believe this sellers thread should be removed.

I feel like you're a little bit confused about what HackForums is.

If you get ripped off here that's on you. Learn the game. I've bought 100's of methods. Most shit. Some gold. That's game we play. Everybody here knows it. And the ones who don't learn quickly.

You're blaming OP for things people on the forum do. You're extrapolating their behavior onto OP.

10 people can offer the same thing. 2 of them offer it well. 1 is the one you can succeed with.

If you're a moron , sure, fail once cry and wag your fingers.

I only say this because OP sold me a method that is absolutely banger. That method is known in areas. For sure it is, there's services built around it. And yet what he sold was the method + hours of his brainpower and experience spent curating it into a smooth operation. Hours spent taking something faulty, and ironing out the kinks until he has the sauce on what works well vs what doesn't.

I agree there's bullshit out there. That's the game. Always has been. I get being annoyed by that, but that doesn't give you the right to free label everyone a scammer. I mean you can do it, but you look stupid to everyone who isn't as stupid as you. Good luck!
