My ledger has literally \$1 wtf is this?
Not even convertible they are all missing.
Please try request later..

....

Now January 17, 2025 BINANCEUS introduces the Polygon Ecosystem Token our holdings are 100% showing!!

It might be glitched. Did you check the public blockchain to see if it's still there?

<https://polygonscan.com/>

Put your address there. Also what wallet are you using. MATIC became POL more recently and that might have something to do with it depending on your wallet.
