Thread: [if it's possible to install a rat or payload on an Android system without social eng](#)

Kurisuu - January 17, 2025, 8:02 am

Hi everyone, quick question. I'm wondering if it's possible to install a rat or payload on an Android system without social engineering? Unfortunately, I haven't found anything else on this. Perhaps one of you knows about this? Would be nice to know?

Unfortunately, I haven't found anything else on this. Perhaps one of you knows about this? Would be nice to know? Yes, if you know the passcode and have it in your hand. Otherwise, a well-crypted, properly functional Trojan embedded in a legitimate APK is going to be your only chance.

Ty DramaKing :) its the only Chance? Or u know a technology technology how to do this remotely?

kentsutcliffe - February 3, 2025, 9:19 am

if you can get access to the device, that will be your best bet.
