Thread: [\[SOURCE CODE\] Stealer Python New Chrome Update \[PASSWORDS & COOKIES & CC\]](#)

hoangdoan - January 19, 2025, 8:57 am

[b]A stealer I wrote in Python with the following features:

- Password Recovery
- Cookies
- [deleted]
- No country restrictions
- No separate server [Send File to Telegram bot]

It has been integrated with the latest technology to steal cookies from browsers.
Can get cookie from Chrome, Edge, Brave, Opera, Firefox...

If anyone needs I can sell source code
And anyone needs to rent it monthly can contact me too
Bcs I need the funds to continue my work.
Transaction through an intermediary on HF
Thanks!

Klonopin - January 19, 2025, 9:00 am

You should just release the source code here, instead of privately giving it out; it seems suspicious for a new user to do so.

cipher2020 - February 1, 2025, 10:40 am

I'm interested in your tool

mdmaty - February 1, 2025, 6:02 pm

Fack... is scamming ... 1 more

Why is everything formatted the same as a redline log?

cipher2020 - February 3, 2025, 5:39 pm

What is the monthly rental price of your tool?

Chorozon - February 4, 2025, 10:07 pm

How did you update it to get around the new chromium patch

hoangdoan - February 5, 2025, 12:35 am

I think all stealers steal the same data bro. Right now it only steals cookies,pass and cc

(Feb 3, 2025 06:39 PM)cipher2020 Wrote: [\[CITE\]](#) What is the monthly rental price of your tool?
\$60 for a month, it's still FUD right now so you probably won't need to hire an additional Crypter service

(Feb 4, 2025 11:07 PM)Chorozon Wrote: [\[CITE\]](#) How did you update it to get around the new chromium patch

<https://github.com/xaitax/Chrome-App-Bound-Encryption-Decryption/tree/main>

This maybe can help you
