Thread: [Whistleblower claim of an upcoming video of submarine & massive UAP/UAS](#)

Hackers - January 24, 2025, 3:25 pm

An alleged video of a submarine under the surface but not too deep. It's dark and visibility isn't great above it, but then the submarine goes up to surface. A massive subterranean craft then moves away, revealing sunlight above it - having cast its shadow to make it dark underneath, which is only possible if the craft above the submarine is absolutely massive.

That's just a rumor but posting it here so I don't forget to look for it in future.
- also because it's so specific

I posted this to another thread but I am putting it here as its own because there is now a 2nd source to corroborate it. No video yet though.

If I'm wrong I'm wrong.

But if I'm right, this post will serve as evidence that a very specific whistleblower did reveal the truth a few days ago. I hope this post one day is helpful to me or someone else in corroborating the claim.

Here's one post about it from the user. Image in their post is unrelated/generated.

<https://www.cbsnews.com/amp/news/ufo-moving-underwater-republican-rep-tim-burchett/>

Quote:UFO is "moving at hundreds of miles an hour underwater," Republican congressman says

Republican Rep. Tim Burchett said in an interview Wednesday that an admiral — whom he did not identify — had told him of an unidentified craft moving at incredible speeds in the sea.

"They tell me something's moving at hundreds of miles an hour underwater... as large as a football field, underwater," the Tennessee congressman told former Republican congressman Matt Gaetz, who now hosts a show on right-wing news outlet One America News.

Stanley - January 26, 2025, 5:43 am

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
