Still selling these? Was going to use the website but it was trying to get me to buy 36 accounts at once for the cheap accounts. For the single accounts it was \$20-40 each. Just need any profile that won't get banned instantly to connect to mobile games for rewards. So preferably \$1 new account or \$3 aged account. I'm unaware of how risky new accounts are on FB, if safe then okay with new.

The site - accszone.com provides instant delivery after the payment.

They are also good at customer support and they refund your money immediately when the account's quality is not good.

But the problem is that you cannot withdraw funds after you get refunds.

i.e. I have added \$300 to purchase a premium account which has only 1 in stock.

but the account quality was not good so they have refunded the money to my balance.

I would like to withdraw the refunded money but their customer support is saying that they don't support refund or withdraw.

This is very embarrassing.

So please be careful before you add funds to your account.
