Just curious what HF thinks about this, and how they will respond.

What will you do when the orbs hover over the White House?

I think I'm gonna watch them hover over the white house bro

what if such a thing happens but our government made it like a holograme. Ever heard of the hologram even conspiracy?

were the U.S. government will use an alien invasion that is holographic that will trick people into thinking we are being attacked.

Instead the government is turning us into slaves. We will go into an underground bunker and be rounded up to move into those fema camps and be work slaves.

that's what is being said around on the internets.

Are there orbs now? What happened with the mysterious drones over NJ? I thought the gov more or less concluded that the drones were a combination of some "research" operation and regular people flying hobby drones. But ofc the gov is always lying. Are the orbs and drones part of the same thing?

DramaKing - January 29, 2025, 3:14 am

The government concluded that the drones were either that, aircraft, or stars. There's Starlink, too.

Didnt Trump said that he will reveal the orb secret in his first day in office?

Homie lied.

Good chance it's just to delay though. They can't just come out and say they have no idea, or they they aren't ours and we can't seem to track them.

People are giving Trump way too much credit here. His statements shouldn't be taken too seriously, the evidence isn't in line with his comments.

If what Trump said is true, then that means USA has successfully invaded multiple enemies - the same craft have been seen over Moscow, Beijing, and dozens of others.

I can personally attest to the "drones" not following FAA regulation and having the ability to hover perfectly in place without moving a foot, even at high altitudes in the clouds, for hours. I have seen this exact model of drone in two separate countries in person, and in several others on video. I do not for a moment think that this'll be the last we hear about the topic from Trump.

Right now my main question is whether Trump intentionally lied, or unintentionally lied. It's unclear at this time, but we do know that even if some drones are military, some are commercial, etc, there are others that aren't.

His comments also don't match up to the military panic we've seen numerous times:

<https://www.twz.com/air/drones-over-new-jersey-show-signs-of-coordination-elude-helicopters-state-officials>

To summarize how ridiculous Trump's statements are. It's akin to:

"The FAA authorised undocumented tests over RAF lakenheath too."

- if you're unfamiliar with Lakenheath then please go look that up as well as all of the other locations I linked above, and a few more. It's not FAA drones lol.

- I think UAP community understands we've just been lied to at worst or unintentionally misled by a yet-to-be-informed POTUS at best.

I think HF will probably respond with a mix of opinions and ideas. Looking forward to seeing the

discussion unfold!

Ahhk aahk ahk-ahhk ahkk.

But back on point. If there indeed were orbs hovering over the White House, I'd probably just watch to see what would potentially happen as a result of the situation.

I'd pull out a blunt, have a nice smoke, watch the show, and make sure I had a giant bag of cheetos with me.

Curious, even if they do arrive, why do you think the orbs will hover over the white house?

7 - January 30, 2025, 9:26 am

Sounds about right.

Also, just found this - very distinguished pilot / USAF / NATO rep specifically stating that Trump is being misinformed by someone in the admin (possibly):

<https://hackforums.net/showthread.php?tid=6290973>

- obviously Trump could just be lying
