Lee Harvey Oswald.

Take your tin foil hats off! The gov says there's nothing to see!

Spoiler ([Click to View](#))

This is a parody thread based on Trumps recent "UAP disclosure" where he disclosed absolutely nothing.

Haha don't worry I won't do this often. I usually don't include breaking news in titles anyways, even if breaking.

**HOMODIN** - January 29, 2025, 5:53 am

Yes, exactly!

There was a rumor that there might've been a second shooter or a cover up, but it was sanctioned by FAA.

All good now

This is actually my first clickbait title / first time posting fake news on HF, ever.

I am just a lowly prince, my lord.

Actually the title could be considered true. Because literally Trump did name the true killer, but we already knew who he was. Trump didn't reveal anything new there. But what is interesting is that fact that Kennedy wanted to dismantle the CIA for their botched job in the Bay of Pigs, Cuba and then all of a sudden he gets whacked. If you can't see a correlation in this, then call me the world's biggest conspiracy theorist. Because to me if it smells like shit, it probably is shit.

yep, Bay of Pigs is very interesting. One "coincidence" is a certain CIA agent called George Bush who is definitely totally not a GB we know of from elsewhere, according to the CIA.

There are a lot of links I could share, but I always found this specific part strange.
