Thread: [Monmouth Co Sheriff wants more answers from Trump & FAA regarding drones/UAP](#)

Hackers - January 30, 2025, 5:27 am

'FAA should testify at Congressional drone hearings.' Monmouth Co. Sheriff: "Let's bring the FAA in. Say why didn't they notify local/state officials so we didn't waste all these resources?"

'FAA Should Testify at Congressional Drone Hearings'

"There's more questions."

Monmouth Co. Sheriff says Biden Administration was "disingenuous" causing NJ residents to live "in fear and an apprehensive state."

"Let's bring the FAA in. Say why didn't they notify local/state officials so we didn't waste all these resources?"

More info - NJ Senator also says he has no clue what Trump is talking about (regarding FAA research over NJ):

Keep in mind that this "FAA research" included nuclear base shutdowns across multiple countries and states.

Trump says it's FAA so now it's time to either punish the FAA for violating so many laws about nuclear airbases and flight safety, or more realistically get the FAA on record that they didn't sanction any of this. We shall see, but it's pretty black and white. Either USA is taking credit for drones in the airspace of both allied and enemy countries, or we still don't know the source. But to pretend that all of these global events are just FAA research is a sad attempt at covering it up and frankly unbelievable.
