Thread: [\[For Sale\] Record Label Business with 1M+ Streams, Generated \\$18K+](#)

KOMPAKT - January 31, 2025, 6:48 am

For sale is an online business I created in 2021. I started an online record label within a specific music genre that has amassed over 1 million + streams across 50+ tracks, and over 2 dozen artists worldwide.

Some stats:

- Most Popular Song (500k+ streams)
- Tracks have been played at some of the biggest festivals in the world
- World renowned artists featured on label
- Generated over \$18k AUD in passive income from streams and downloads every quarter
- Multiple tracks on Top 100 Chart for specific music genre
- Featured in articles and collaborated with some of the biggest record labels & brands in the industry
- 10,000 total streams in the last 30 days
- Last pay check was yesterday. \$250 AUD.
- Comes with socials (insta, fb, YouTube, email, Spotify, Spotify for artists)
- hundreds of artists sending in their demo's through the talent email of the brand.
- hasn't posted a release since 2023. Inactive but still gaining streams
- comes with full transfer to your name via the Label Distributor, and I will personally walk you through the entire label distributor system to show you how to setup and schedule releases to global stores such as Spotify, Apple Music, iTunes, pandora, YouTube & more.
- awesome scene, growing scene, festivals like crazy around this music and big earning potential!

Price: \$5000 ONO

The brand has great potential and with the right person can easily be making tens of thousands per quarter. Let me know if you have any questions or concerns.
