What a lovely contest!

Wishing best to all, I'm sure many worthy people shall approach.

I would like to put my post in towards the UB3R usergroup. Mainly because I have been around HF for a while now. Longer than some but shorter than many. However I am not in a financial position where I could freely purchase this myself. I have always taken my time in making sure my posts are of good quality and at least in some way insightful.

I may not post as frequently as others but do my best to when its something I either have knowledge in or want to learn.

Good luck to everyone, and thank you OP for this opportunity!

I'm already Ub3r for now. Another great member gifted me some time ago.

Anyways. Just wanted to say thanks for doing this OP. These upgrades can mean a lot to folks

wanting to get a head start in HF.

Hello, I understand that you mentioned members who have been here for at least a month can apply for this contest, but I have only been a member for a little over three weeks. While this may put me at a disadvantage, I still want to make an attempt.

I am applying for a chance at the l33t permanent upgrade. Although my time here has been relatively short, I consider myself a contributing member. I am using HackForums to assist me on my journey to learn programming, and in the process, I have also been improving my English skills. I have shared a few things in the software development section, but with the anti-lurking laws and the general sense of distrust towards grey members, I believe that I would be in a better position to have my contributions noticed and appreciated.

PS: Also, \$30 US is a lot here, and in chat it seemed like people were being banned on request with no trial or anything and I cant risk the money.

Well, first off thanks for doing this contest and good luck to everyone entering.

I Really want to be an upgraded member for HackForums because it's a place where i feel like i'm going to end up spending a good majority of my time on. I've signed up on plenty of other forums to find a sense of a structured community and haven't found one quite like HF so i'm sticking around for good. My plans are to contribute high quality content to the site as much as i can and help others out any way possible. I Feel like this will be a good opportunity for me to take it more seriously so i can be more invested in stuff i do on here and for the future.

EDIT: in my original post i forgot to mention ub3r

Very much interested, Can I participate?

Cheapsupplier - July 24, 2025, 9:46 am

I'd really appreciate the L33T upgrade because I'm excited to dive deeper into the community and contribute meaningfully. Having access to L33T would open up more resources and help me connect with others who are serious about growing and sharing knowledge. I'm here to learn, support others, and build a solid reputation. This upgrade would be a great step toward becoming a valuable member of the forum. Thanks for the opportunity and good luck to everyone else entering!

azizopser - July 24, 2025, 11:39 am

Hey I appreciate a lot this contest. I know I am not a full member I'll close the 1 month like in a week.

I never heard about this community otherwise I would have invested my money into it rather than buying some random upgrades on other websites (OGUser, patched). No one in fact told me about this forum I found it when I was using chatgpt to find some marketplaces where to advertise my services he just putted it in the bottom of the list.

After investing my money into random websites (Patched, OGUser, Kingz). I had been for like 1 year registered there and I am not gaining anything from my sales. I felt really like I wasted all my money I have gained. After finding out this website I really was stunned by the data in it such as money making methods and hacking tools. It was really full of infos I should have probably put my money into an upgrade permanent here. But as a beginner, Mistakes happen and I started learning from my faults.

All I have for now is 7\$ profit I gained from 1 sale from OGUser and Patched. So that's why I am into this contest and I appreciate this contest whoever is winning in it.

I would like to become Ub3r. There is a lot of respect for that group. It is a big goal of mine to be Ub3r. It would be very useful to have that upgrade. I have been l33t for some time.

DAL-SHA - September 26, 2025, 1:28 am

Great way to compete in a contest in HF !??? I'm sure all the worthy will approach for the challenge !???

SpiderSpicy - January 20, 2026, 9:28 am

Good luck to everyone who participates in this contest! Much appreciate it!

Sugawara - January 21, 2026, 1:40 pm

Would really appreciate the Ub3r upgrade. Currently not in the position (monetarily) to go for an upgrade myself. But long story short, been here on HF for quite a while (It's been around 14-15 years). Used to be super active in the initial days, but lately have been tangled in work and family and just things. Thank you for hosting this. Kindly consider this as my entry for Ub3r upgrade.

RangoWorld - January 22, 2026, 12:25 am

Hi,

I'm Rango. I have been part of this community for over 2 years now. I have been active throughout this period and have contributed to many domains of the forum. You can see my reputation and credibility as a testament to that.

I was an Ub3r member but that subscription ended. I'd love to get back to Ub3r group and access the parts of forum and my profile that I did so before.

If I get Ub3r again. I will again do my best to utilize the membership to its fullest.

Thanks

techpacket - January 23, 2026, 10:11 pm

Member upgrading is very important for me.

I am offering IT-related services on this forum, and my main goal is to work honestly by using my skills. However, due to my current financial condition, I am unable to afford the membership upgrade.

Previously, normal members were allowed to offer services, but now an upgrade is required. Because of this limitation, I cannot offer my services, participate in contests, or join giveaways, which has completely restricted my ability to grow and earn here.

If I receive the member upgrade, I am confident that I can actively offer various IT-related services, help many members, and improve my financial situation. This opportunity would allow me to support myself and also contribute to my family.

I am highly motivated, hardworking, and ready to prove my abilities through consistent effort. I truly believe that this upgrade will help me move forward, add value to the community, and create positive results for everyone involved.

This is my humble request, and I sincerely hope I can win this upgrade contest.

Best of luck to everyone.
