Thread: [Virtual Assistant and other things](#)

gxmonitor - February 3, 2025, 3:46 am

Hello guys,

I have lots of free time these days. I can do various things.

My offerings:

1) Telegram / Discord group moderation:

I have worked with 14+ crypto/NFT projects as a Telegram Admin/Moderator. I have successfully handled responsibilities like social media posting, Comment moderation, group interaction, spam removal, channel growth, and more for my clients.

2) Telegram / Discord / Facebook group chatter, Shiller

I have worked with 6 NFT projects as a chatter/shiller. My duties were to keep healthy conversations in the groups.

3) Shopify VA

I have handled Shopify stores for my clients.

4) YouTube thumbnail and Shorts

I can create attractive thumbnails for your YouTube videos. Also, I can create Youtube shorts using various tools.

5) Content uploading:

I can upload content to YouTube channels, Insta pages, Facebook pages etc.

I also have a good Upwork profile, with many projects completed between 2016 to 2022.

Friends, if you need any assistance, you can hire me. I am always ready to learn new things, too.

Cheers,

G33K - February 14, 2025, 9:43 pm

This sounds interesting.. Are you just interested in jobs where i pay you. Or are you down to do project together to make some \$?

hey bro, how do your costs work? Is an hourly rate or KPI based i.e certain amount of tickets replied to?

May need your services in the future for customer service / ticket based.
