Thread: [E-Whoring earned me about 600\\$ this week. How much have you earned?](#)

Novo - February 4, 2025, 2:16 am

This week I worked a bit more on e-whoring, improved my method a bit, and my whores earned me 600\$, which is a great week, compared to average weeks which I earn between 200-300, or bad weeks where I earn from 50-100.

The only problem I've been having is people putting packs on reverse image search and stuff, but i made a tool which makes it so reverse image search won't find them.

How much have you earned this week?
