UAP can be natural phenomenon, and ordinary, but unidentified.

UFO is a foreign object.

I have never claimed what I saw was foreign or a specific "object". I only know what things look like, not what they are, nor where they are from.

Therefor my answer is UAP.

And you?

diablospartan - February 6, 2025, 6:15 am

Well this its exactly like cofee with cigarete

If you drink a cofee then you need a cigarette ,also the cigarette feels amazing when you have a cofee

So the same with cocaine and whisky : its perfect to have both of them

Waaaaayyyy too early lol

Jamika - February 6, 2025, 2:14 pm

Both r shit , he can change this to "whiskey is not safer than coke " as both are shit

Have you ever tried a good Bourbon?

I don't drink anymore except for special occasions, and I do not do blow.

If you wanna look at it that simply sure. I'm pretty sure cocaine has a higher dependence potential, it's illegal which means its not regulated, which means while somewhat uncommon you can absolutely get the beautiful fentanyl death.

Pretty much any drug taken in the right dosages is "safe", that doesn't make them all alike.

Haha yeah exactly

I also think that if cocaine was as readily available as whiskey in every store, society might be fucked before we can complete a research study on what's safer anyways.

WE WILL ALL BE TALKING LIKE THIS AND NOT USING PERIOD AND CAN YOU IMAGINE IF WE ALL RAILED A LINE BEFORE OUR POLITICAL DEBATES, IT WOULD BE ROUGH WITH THE RUN ON SENTENCES AND THOUGHTS ALONE BUT THINK ABOUT THE ANGER AND THE EMOTIONAL ROLLERCOASTERS AND COMEDOWN IF EVERYONE DID COKE ALL DAY ON THE CHEAP LEGALLY

jane - February 6, 2025, 2:50 pm

if i did coke id have to have whiskey too.

maddevsol - February 6, 2025, 5:21 pm

Depends on the whiskey

Flan. - February 7, 2025, 12:25 pm

Interesting comparison, but I think the societal impact and legality of cocaine vs. whiskey definitely make them different.

Portugals - February 7, 2025, 1:35 pm

only whiskey i understand

Yeah and also if someone drinks too much whiskey they're off to bed

If someone has too much cocaine they're off to chat with everyone

I think coke would have detrimental effects

SIM-5614029 - February 7, 2025, 2:12 pm

Don't forget something to smoke and a beer to wash down the liquor between different sorts!

scoobs23 - February 7, 2025, 2:15 pm

can anyone get into my fb account me ex has got if so how much thanks...becky

Chorozon - February 7, 2025, 4:22 pm

Cocaine makes you more efficient
Whiskey Kills

Braco22 - February 8, 2025, 9:25 am

One doesn't go without the other. It's the best combo.

SIM-5604220 - February 11, 2025, 8:36 am

I'll take both haha

Kindly share lol

Divine Intellect - February 11, 2025, 8:49 am

i would say that they are about equally dangerous

but there's new research that shows alcohol is even more dangerous of a poison in the human body than we previously realized

i'd rather have some degree of heart damage and dopamine downregulation than a shitstorm of general health problems.

though the main problem if you were to use alcohol would be the social implications because most people will destroy their connections if they were using it constantly

Sounds like a major excuse for those who are greatly addicted, even whiskey but there is one bright thing in whiskey, it cleanse your body from bacteria caused from some things that addicted ones do when they get high. ?

Dredd - February 11, 2025, 4:42 pm

Don't do drugs kids, listen to uncle Dredd.

Tyr - March 2, 2026, 12:35 am

Cocaine. Tyr doesn't drink when he partakes in the fish scale.

Not big on alcohol in the first place tho

Don't do drugs and if you don't have money socked away or your life squared away financially (and even still) coke will ruin your life as bad as crack would if you do not have moderation as a person. Hollywood brainwashes. Rly simply bc of the stigma attached to it many people end up addicted and ruining their lives. Not trying to state the obvious.

I prefer having money at the end of the day but nothing wrong with some scale @ special occassions or if I am playing in a high elo match via rivals

yes

RangoWorld - *March 2, 2026, 12:56 am*

Why not both?

Tyr - *March 2, 2026, 1:20 am*

(Mar 2, 2026 01:56 AM)RangoWorld Wrote: [\[CITE\]](#) Why not both?

A lot of people enjoy alcohol with cocaine, esp whiskey, but I find that it wastes half of the high for me. I literally only even chop up if I am out partying 1x every 2 weeks at most or at home in a competitive FPS match because these 12 year olds are damn fucking good

Freemasons - *March 2, 2026, 1:37 am*

Whiskey over cocaine always anyday anytime.
