i am a beginner, a noob , i would say. tryna get into hacking. any tips how to step up my game from being a script kiddie? also looking for friends ?

Hikko_ - February 6, 2025, 2:25 pm

Hey man, can't say i can help much as i am also a beginner trying to learn more, but if i can answer some of your questions i'll do, let's learn together

zapperido - February 6, 2025, 2:36 pm

help me how to hack my wifi, i forgot the password. as far as i remember i used hella symbols and currently no active device is connected. any ideas?

KaotikYan - February 6, 2025, 2:42 pm

You can simply reset your router for it to go to default credentials (back of router)

Or connect an ethernet cable and change the password from there

You are wanting access to your own WiFi but you've forgot the password? If it's your wifi and pay for you can request a reset password which is the most common and probably the less brain rot thing to do and they can send you a new password?
