Thread: [Dynamic DNS](#)

rhithern - February 7, 2025, 8:42 pm

With anonymity in mind, Does anyone know of any free or paid dynamic DNS that they can be recommend for RAT set up in RDP?

Also I would like to know if DuckDns will work on RDPs and how to set it up

Yokobovich - February 7, 2025, 8:48 pm

For name/IP lookup?

freedns dot afraid dot org is quite useful and free.
