Thread: [Portugals - Refund](#)

Portugals2 - February 10, 2025, 11:55 pm

Hello, we had a long dispute with this guy but the forum admin made the final decision, so I will refund this guy.

I can't contact this guy because he blocked me on telegram, send him the crypto address from here and I will refund him

If a refund decision was made before my other account was closed, I would have done it, but since I couldn't access it, I opened a new account, I am not a scammer, I don't want my account to be closed because of this, I have many customers here and I want this to be resolved now

[THE RULER](#)

Share your crypto address here, I will refund you and share your TXID

and as a gift I will upgrade your account to premium for 1 month

Thanks

THE RULER - February 11, 2025, 12:53 am

That's funny. You openly scammed me and sent me a free trial subscription instead of what I paid for then fought me on a dispute for \$15 for 3 weeks when you literally have nothing invested in the transaction AT ALL. The worst part is you've done it to multiple people and have made people leave the forum with your practices.

Personally I think you deserve a permanent ban for the low price of \$15

If Omni wants to unban you and deal with the headache that you will inevitably cause in the future, seeing as you are willing to completely ruin your reputation for just 15 measly dollars, then I will happily comply. Though I'd rather you just keep it and say good riddance to HF, grifter.

6. One active HF account is allowed meaning multiple accounts will not be allowed unless you are either reporting your original account as hacked or your original account was closed for inactivity. Ban evading will result in the permanent closing of your old account and new accounts. No exceptions.

I assume you were not supposed to create another account whilst having your one account

banned. Goes straight off the forum rules. I can see the ban incoming again!

Omniscient - *February 11, 2025, 8:17 am*

Closed for good. OP had his chance to refund and resolve the Dispute. This is the result.
