Thread: [Add Go/Golang to Software Development thread prefix list](#)

Hackers - February 11, 2025, 5:32 pm

I think that Go / Golang should be added to the thread prefix list for this forum:
[Software Development](#)

It's a popular language & is a bit more modern than some others on the current prefix list.

Thanks!! I'll make sure to post another thread soon to make good use of it :)

edit:

[Omniscient](#) -- sorry, it's actually usually just "Golang" or more commonly: "Go"
Rather than GoLang with the capitalized L.

Okay, fixed to be just Golang.
