Thread: [The UFO clip shared by Elon Musk - Implying UAP whistleblowers end up sui-murdered](#)

Hackers - February 13, 2025, 11:47 am

Let's be clear, Elon Musk is a problem. However, I will give him credit where it's due.

He shared this clip from a UFO documentary.

Specifically, the clip suggests that we won't get disclosure from the US Gov until an employee leaves a secret science lab and releases data to the internet - right before they commit suicide by shooting themselves in the back of the head 5 times.

I think that says a LOT, and this is in line with what we've heard from numerous whistleblowers. I do have to thank Musk for sharing something useful here with the world. The more attention we can get on this topic, the better.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Wow, that clip is pretty intense. Thanks for sharing, definitely makes you think about what's really going on out there.

Though I will say I look forward to Trump and Elon announcing the discovery of aliens and when they create an intergalactic treaty with a subdimensional creature we will all look back and laugh at how we ever doubted them!
