Thread: [Boost Your Income - Easy & No Experience Required](#)

Oxycodone - February 15, 2025, 10:31 am

How to make passive income, nearly automated and can be automated I'm sure, no investment needed other than purchasing this guide.

I will provide you everything you need, and a guide on why and how this works. Along with everything you need to deal or handle all customers. Source code to help speed things up and expand your services.

Support is nearly automated, other than basic trouble shooting that ultimately will point all support to Boost Mobile.

You will receive everything you need to start, this will require you to use a platform to sell on such as:

eBay
Facebook Marketplace
Etsy
Your own website
etc..

Without any effort, this made me 100\$ in 2 days on ebay. My sales on ebay after a week are increasing daily and I have not marketed this at all other than make a ebay listing.

Facebook marketplace, I used 2\$ to boost my sales listing, and got a sale within minutes.

So as long as you have the ability to sell in a U.S Market Place, this is a digital product no shipping is required.

We are reselling cell phone plans, with 0\$ investment .

Starter SIM Card Kit

Priced at \$4.99, this kit includes a SIM card compatible with most unlocked phones, allowing you to choose a plan that suits your needs.

BESTBUY.COM

3 Months 3GB Plan SIM Card Kit

Available for \$44.99, this kit provides a 3-month plan with 3GB of data per month, along with unlimited talk and text.

BESTBUY.COM

3 Months 5GB Plan SIM Card Kit

Offered at \$39.99, this kit includes a 3-month plan with 5GB of data per month, plus unlimited talk

and text.
EBAY.COM

3 Months Unlimited Data Plan SIM Card Kit

Priced at \$69.99, this kit provides a 3-month plan with unlimited data, talk, and text.

EBAY.COM

These are just some of the items and their costs, you simply cut off their price at a discounted price if you choose to, and sales flood in. Or sell for normal price, if you know how to market.

If you had marketing experience it's a plus. Or if you put some money into ad campaigns without experience, will do a lot regarding sales.

The source code I have to assist is in python but it can be done manually as well for the most part. So no coding experience needed, but it is a plus to at least have python installed.

This can be repeated and is easy to do. With a little effort, you can upscale this to automate if you have a platform to auto-deliver files upon purchase.

Telegram: etnakS@

Price 300\$

Includes everything, you just need a store. I will guide you through your first sales in case of any issues.

I will offer a more detailed explanation and walk through prior to purchase to ensure it's something the buyer is 100% aware of how things work and isn't misled, and knows what to expect. I just don't want to sell too many of these copies either, as I don't want to saturate it, just need some extra income right now.
