? ESET Online Scanner - Complete Tutorial ?

ESET Online Scanner is a powerful cloud-based scanner that detects and removes viruses, spyware, adware, rootkits, and other malware. It is a one-time scan tool that does not require permanent installation, making it an excellent choice for an on-demand malware scan.

? Step 1: Download ESET Online ScannerGo to the official ESET Online Scanner download page:

- [Download ESET Online Scanner](#)

Click the "One-time Scan" button.

The download will start automatically. Save the file to your Desktop.

? Step 2: Run ESET Online ScannerLocate the downloaded file (esetonlinescanner.exe).

Right-click the file and select Run as Administrator.

If prompted by User Account Control (UAC), click Yes.

The ESET Online Scanner window will appear.

? Step 3: Accept Terms & Update ScannerClick Accept to agree to ESET's terms of service.

If asked, allow the scanner to update its virus database before proceeding.

Click Continue.

? Step 4: Choose Scan TypeSelect Full Scan for a complete system scan.

You can also choose:

- Quick Scan (only scans key areas, faster but less thorough).

- Custom Scan (select specific folders or drives to scan).

Click Continue.

? Step 5: Configure Scan SettingsUnder Detection Settings, check:

- ? Scan for Potentially Unwanted Applications (PUAs)

- ? Scan for Potentially Unsafe Applications

- ? Scan for Potentially Suspicious Applications

Click Start Scan to begin.

? Step 6: Wait for Scan to CompleteThe scan may take 30-90 minutes depending on your system.

You can continue using your PC while the scan is running.

If malware is found, it will be listed in the results.

? Step 7: Review Scan ResultsIf threats are found, they will be marked as:

- ? Malware Detected
 - ? Potentially Unwanted Applications (PUAs)
- Click Remove Selected to quarantine or delete detected threats.
Click Continue to finalize the cleanup process.

? Step 8: Save & Upload Scan LogClick View Log to see the scan results.

Click Save Scan Log and choose Desktop as the save location.

Upload the log to one of the following services:

- [Pastebin](#)
- [Mozilla Pastebin](#)

Set the log to Never Expire and share the link if you need assistance.

? Step 9: Finalizing & Optional ActionsYou may be given an option to enable Periodic Scanning for future scans.

- Select Yes if you want ESET to scan periodically.
- Select No if you prefer a manual scan.

Click Finish to exit the scanner.

? Features of ESET Online Scanner

ESET Online Scanner can:Detect viruses, trojans, ransomware, and spyware.

Identify hidden rootkits and system infections.

Scan archives, memory, and running processes.

Detect adware and potentially unwanted applications (PUAs).

Run without conflicting with existing antivirus software.

Use advanced heuristics and cloud-based scanning.

? Important Notes:

? ESET Online Scanner is not a real-time antivirus; use it as an additional malware removal tool.

? Ensure your internet connection is stable during the scan.

? If ESET fails to remove malware, consider using additional tools like:

- Malwarebytes ([Download Malwarebytes](#))
- Kaspersky TDSSKiller ([Download TDSSKiller](#))
- HitmanPro ([Download HitmanPro](#))

If you have any questions, feel free to ask! ?
