Thread: [\[MRT-X Academy\] Panda Cloud Cleaner Tutorial](#)

Tha Sneak - February 17, 2025, 4:42 pm

? Panda Cloud Cleaner - Full Tutorial ?

Panda Cloud Cleaner is a free cloud-based antivirus scanner that detects and removes viruses, malware, spyware, and other threats. Unlike traditional antivirus software, it analyzes files in the cloud, using Panda's collective intelligence to detect even the most advanced malware.

? Step 1: Download Panda Cloud CleanerGo to the official Panda Cloud Cleaner*download page:
- [Download Panda Cloud Cleaner](#)

Click Download Now.

Save the file to your Desktop for easy access.

? Step 2: Install & Launch Panda Cloud CleanerLocate the downloaded file (PandaCloudCleaner.exe).

Right-click the file and select Run as Administrator.

If prompted by User Account Control (UAC), click Yes.

Follow the on-screen instructions to complete the installation.

Ensure "Launch Panda Cloud Cleaner after installation" is checked, then click Finish.

? Step 3: Start the ScanOpen Panda Cloud Cleaner.

Click Accept and Scan to agree to the terms and begin scanning.

The scan will analyze running processes, system files, registry entries, and known malware locations.

Wait for the scan to complete (this may take 20-60 minutes).

? Step 4: Review Scan ResultsAfter the scan, Panda Cloud Cleaner will display a list of detected threats.

Each detected item will be marked as:

- ? Malware – Highly dangerous, should be removed.
- ? Potentially Unwanted Program (PUP) – May not be harmful but can cause issues.
- ? Suspicious Item – Requires manual review.

Click on each threat to view detailed information.

? Step 5: Remove MalwareSelect all detected threats for removal.

Click Clean to remove them.

Panda Cloud Cleaner may prompt for a system restart to fully remove stubborn infections.

Restart your computer if required.

? Step 6: Save & Upload Scan LogClick View Report to review scan results.

Click Save Report and save it to your Desktop.

Upload the log to one of the following services:

- [Pastebin](#)
- [Mozilla Pastebin](#)

Set the log to Never Expire and share the link if you need assistance.

? Features of Panda Cloud Cleaner

Panda Cloud Cleaner offers:Cloud-Based Scanning – Uses Panda's collective intelligence to detect threats.

No Permanent Installation – Runs as an on-demand scanner.

Detects Advanced Malware – Finds rootkits, spyware, and zero-day threats.

Removes PUPs & Adware – Eliminates annoying toolbars and unwanted programs.

Registry & System Cleanup – Fixes system settings altered by malware.

? Important Notes:

? Panda Cloud Cleaner is not a real-time antivirus; use it as an additional malware removal tool.

? Ensure your internet connection is stable during scanning, as the tool relies on cloud analysis.

? If Panda Cloud Cleaner fails to remove malware, consider using additional tools like:

- Malwarebytes ([Download Malwarebytes](#))
- ESET Online Scanner ([Download ESET Online Scanner](#))
- HitmanPro ([Download HitmanPro](#))

If you have any questions, feel free to ask! ?
