I am selling a Call of Duty Activision account linked to Steam and PSN.

This account is aged and has the Dark Matter camo on almost every gun. It also features an OG username with no numbers after it. No cheats were used—all camos were earned legitimately.

? Account Details:

? Full Access (Steam, PSN, and Email)

? Dark Matter Camo on nearly every weapon

? OG Username (no # or numbers)

? Legitimately Grinded – No Cheats Used

? Many Operators Unlocked

? Includes Interstellar Mastery Camo from MWIII

? Can Be Linked to Any Platform

? Price:

\$300 BTC/PayPal (Negotiable)

? Important Note:

? This account was primarily played on PSN, meaning there are no shadowbans on that platform.

? If you plan to use this account on PC, please be aware of the potential risks.

? DM me if you're interested! I can provide more screenshots upon request.
