This is stupid. Our administration is literally low IQ. Not much else to say. If you need "proof" of that after having close to a decade to witness it, that's on you.

I won't respond to people who have NDS or IDS.

Nodes & Intelligence Derangement Syndrome have affected this community significantly.

There is no explanation needed. You either see the problems in the current admin easily, or you're too simple to see. I've come to realize that the reason certain people request evidence and argue is because they have lived under a rock for 8 years. They need only open their eyes.

Quote:On Tuesday, U.S. Secretary of State Marco Rubio sat down with Russian Foreign Minister Sergei Lavrov at the Diriyah Palace in Riyadh, signaling a potential thaw in U.S.-Russia relations after years of tension following Moscow's 2022 invasion of Ukraine, and upending years of American foreign policy that has alarmed NATO allies.

Rubio was joined by U.S. national security adviser Mike Waltz and President Donald Trump's Middle East envoy Steve Witkoff. Russian President Vladimir Putin's foreign policy adviser Yuri Ushakov was also there with Lavrov. Saudi Foreign Minister Prince Faisal bin Farhan Al Saud and the country's national security adviser Mosaad bin Mohammad Al-Aiban also joined but were expected to leave early in the talks.
