Thread: [Masking your Digital Footprint](#)

OtterBot - February 21, 2025, 12:05 pm

Hello Hackers,

Wanted to contribute a little something to the community, this is my first time creating a 'how-to' if you will so the format isn't as pretty as some others (because I can only upload as .txt); However, the info is still the same. This will give you the basics on the following:

How to help hide yourself online.

Managing separate identities

Securing communications

Controlling your footprints

Safe habits

Detailed step on each topic

If you are unable to afford the byte cost please post in the comments and I will assist you getting a copy, thank you for being apart of this community and hope to see us all grow together!
