I highly recommend you guys try this game.

After watching Season 2 of Solo Leveling (God Tier Anime), I decided to try the game since it's free with a PC version (was mainly on Mobile).

I'm surprised how hooked I got with this game, it's also very Free to Play friendly.

Let me know what you guys think, no reason not to try it.

If y'all give it a shot and actually play, y'all can join my guild (Level 20 minimum requirement).

Highly Recommended.

It's very addicting. It's also a gacha game, but Free 2 play.

Just watched out the whole serie,

I must say, it was actually good! This is actually first time watching anime for the first time, I have also watched ATLA but I dont think that considering as anime, but solo leveling was very good, loved the art of fighting. I love the idea of bringing RPG game into a serie.

Waiting for the 13 episode tomorrow.

Any recommendations of what to watch?

Yeah, Season 3 is already in production (6 confirmed seasons). The manhwa is good too, it also has a sequel (Solo Leveling: Ragnorok).

My anime recommendations are mostly romance since I like romance/comedy animes, Solo Leveling will always be up top though.

Here's some I recommend:

- Darling in the FRANXX
- The Quintessential Quintuplets
- Tokyo Ghoul
- Your Lie In April
- 2.5 Dimensional Seduction
- My Dress-up Darling
- Sakamoto Days
- Plastic Memories
- My Love Story with Yamada-kun at Lv999
- My Happy Marriage
- Don't Toy With Me, Miss Nagatoro
- Blue Box
- your name.
- A Silent Voice
- More than a Married Couple, but not Lovers
- Shikimori's Not Just a Cutie
- The Angel Next Door Spoils Me Rotten
- Golden Time

It's pretty flexible with free to play players. You don't have to buy anything in the game
