Thread: [Semi-Automated Dropshipping Business For Sale \\$396K Revenue](#)

uzi - February 22, 2025, 9:09 am

Hi everyone,

I'm offering my established dropshipping business for sale. Here's a quick overview:

Industry: E-commerce/dropshipping on the Shopify platform.

Brief Business Overview: Operates on a dropshipping model with a streamlined, private fulfillment team and strong online presence.

Semi automated with the private fulfillment partner managing all orders.

Advertising platforms used are Facebook, TikTok, and Google ads

I pay one invoice everyday to fulfil previous period orders

Spend a few hours every month to update the site to be relevant to the season (e.g Black Friday sale)

One cheap, dedicated support agent handles all customer messages and emails.

Financial Snapshot (Last 365 Days): Order Revenue: £313,764 (\$396,346.68 USD)

Net Profit: £152,311 (\$192,399.26 USD)

Net Margins: 49%

Financial Snapshot (Last 30 Days - 22 Jan to 22 Feb 2025): Order Revenue: £38,449 (\$48,568.78 USD)

Net Profit: £9,652 (\$12,192.41 USD)

Net Margins: 25%

Extras: Instagram: 13.8k followers (100% organic) with connections to hundreds of influencers for future partnerships.

TikTok: 10k organic followers.

Email List: Over 10,000 customers grown organically on Klaviyo for effective email marketing.

Operational History:

Launched March 2022

Transition Support:

3 Months (negotiable)

Reason for Sale:

I've always wanted to run a direct-to-consumer (DTC) brand. I recently launched a DTC home brand - which I'm more passionate about and have built with a warehouse and local team in my city - so it's time to sell this business to focus on my new venture.

Obviously, this post is just a brief overview. For serious inquiries, I'm happy to provide any extra information.

Please be prepared to provide proof that you are a serious buyer.
