Hey guys, funny title eh? ?

Anyways, as you can see from my previous threads/rep I used to be pretty involved with the hackforum ewhoring community back in 2016/2017

Back then, though, we used to post craigslist ads, or use other terms of traffic to send pics/vids for money. Before that we used VCW's on skype, and that worked quite well as well.

However- I'm now curious to see what types of methods exist today? I need to make some side-cash again and figured I'd light the torch again. If any of you are willing to share new methods or what's 'meta' right now I'd greatly appreciate it.

Not even sure if this sub is active anymore, or if its even worth starting again- but hey, you never know.

Anyways, glad to be back. Thanks guys.?

I am also looking for the same information, and was also around here at that same time. I also did a bunch of pedobaiting back in the day. Looking for the best methods to spread and pick up targets. I'm thinking of even using Kijiji (Canadian craigslist) at this point..

Also nice Mac Miller profile picture man.

Selling a.i. girls on fanvue is what I been doing. Generating the traffic from Social Media Websites, Dating apps, tiktok and forward to Fanvue. you Can verify on Fanvue as a Male and sell A.I girls that are allowed (just not deepfake celebrity nudes).
