Need a skin ? Don't want to pay Activision prices ? We've got you covered .

A 3000cp skin will cost you \$29.98 with us it will cost you \$19.50 .

Account information is not required it's just a gifting process. Send me steam ID and I will gift you the desired pack .

This is safe and rest assured nothing will happen to your account I myself have been doing this since MW2 .

All you need to have is your Activision account linked to steam and warzone installed (not the full game) warzone is the free version .

I am looking for a high-quality BO6 operator skin!

Works for all platforms , but if you have a laptop/pc just install steam , and I will gift the operator to you via steam and you should be able to use it on all platforms .

I play on blizzard and I still have the skins as per usual .
