Thread: [THE BEST TRADING BOT to Buy SOL Memecoins and Pump.fun Tokens - MAKE \\$10K EASILY](#)

DrRespect - February 26, 2025, 2:43 pm

I've used a lot of decentralized trading bots for SOL memecoins and pump.fun and I'm not joking when I say this is the best and quickest one

AXIOM

Read the thread first, then use this invite only link to start using the trading platform:

[Axiom.trade/](#)

This trading platform already has countless features, so here are many that come to mind that might get you to use it:

Pulse: Pump.fun vision

This one is really useful, you can see the newest coins, coins that are close to bonding, and coins that have already bonded ALL IN ONE PAGE. I've attached an image to this thread so that you can see how it looks like. You can also QUICK BUY to get in before anyone else does.

Rewards for trading and Airdrop Coming Soon

You get FREE rewards just for trading that you can collect, just start trading and then check back for more SOL. The first round of airdrops are coming out soon to people who use the trading platform. You earn points based on trading volume, completing quests and referrals. I've personally been farming the airdrop and am excited to see how it goes.

Super Clean UI and Fast Updating Charts

The UI looks extremely clean, I noticed this almost right away when using Axiom. You really need to try it for yourself. The charts also update at a much faster rate than any other trading platform.

Take Profit/Stop Loss

This ones really convenient, you can set your own TP/SL easily.

Portfolio Analyzer

You can see your most profitable trades, right in one page along with your total realized and unrealized PnL to see how you're doing. This is huge because I always wonder how much profit I'm in whenever I make some trades and it shows you everything in one page. Just click on the portfolio button at the top of the site

Email and Phantom Integration

Your Axiom account can be either connected to your email or phantom phantom meaning that logging in is super easy.

In order to start, click on the link at the top of the thread and you'll be directed to the site through there.

If you have any questions to how the bot works or how to onboard, send me a DM. Try it, you really won't regret using it.

Let me know if you have any questions about how to use the trading platform, signing up is pretty easy and it is a decentralized platform.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

I'm getting rewards back just for trading on Axiom. Give it a try and let me know if you have any questions.

The best way to get started on it is to dive right in and start trading, from there you can test out each feature and see which one you like to use the most.

Oh boy, another person spamming their axiom referral link

DrRespect - March 3, 2025, 10:51 am

I'm happy I got introduced to Axiom, so much better than any other trading platform I've used.
