EDIT:

I can vouch here.
The encryption is good.
Persistence is good.
FUD on kleenscan and a few others.
Happy with my buy. It was quick and he resolved an issue quickly.

I recommend.

Thanks

Hi friend, we have a pending project. I've already paid you, but you haven't answered me on Telegram for several days. Is everything okay? I hope you can finish the work I paid you for.

KyleTheXyle is most likely a scammer. I contacted him on Telegram, and he doesn't accept any kind of escrow or even escrow bots. Be careful
