Thread: [Crypter Defender Smartscreen](#)

Vautardjl7 - February 27, 2025, 9:29 am

Je suis à la recherche d'un crypter de Backdor ,

Selon mes recherches on me fait comprendre que tous ceux qui me propose des crypters capable de bypasser smartscreen sont des menteurs , c'est vrai ? et la seule manière de passer Defender smartscreen c'est d'acheter un une signature EV qui coute très cher .

Qu 'est ce que je dois faire ?

Il ny a vraiment pas de solution pour contourner Defender smart screen ?

Si tu as la solution écrit moi stp [warn]

I'm looking for a Backdor encryptor.

According to my research, I understand that everyone who offers me encryptors capable of bypassing the smart screen is a mentor, is that true? And the only way to bypass the Defender smart screen is to buy an EV signature, which is very expensive.

What should I do?

Is there really no solution to bypass the Defender smart screen?

If you have a solution, please write to me [warn]
