Thread: [Top 10 hacking toll un 2025](#)

Devil Raaz - March 5, 2025, 12:12 pm

Below is a list of tools that are widely used today and are expected to remain essential for ethical hackers, penetration testers, and cybersecurity professionals in the near future. These tools are legal and widely used in the industry for legitimate purposes.

1. Nmap (Network Mapper)
2. Metasploit Framework
3. Burp Suite
4. Wireshark
5. John the Ripper
6. Aircrack-ng
7. SQLMap
8. Cobalt Strike
9. Ghidra
10. Nessus
