Obviously no need to even comment anything. Stole my 2.000\$ for some modified free scripts ,claimed his laptop is not working, blocked me on telegram and changed his name here on SIM. Fucking kid.

No way you trusted an account that looks like this without a middleman.

[Omniscient](#) Sorry for the early tag but I'm sure that won't change a thing. My fault for paying once again.

Live demo of his BS exists if u want me to dm you but the blocks and all these are enough I suppose

It dosent matter what the product is, you are on HF. Use contracts and always use a MM.

Woah, user wanted me to proxy-sell his tools here and got quite close to doing it but I had a bad feeling about him.

He is quite reputable on a competitor forum and sells his tools there. Goes by the name Funiki or 'JoshuaDev'.
